Summary

MCA graduate (2026) with practical experience building scalable full-stack applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Developed multi-vendor and multi-role web platforms implementing JWT authentication, RBAC, RESTful APIs, Cloudinary storage integration, and payment verification workflows. Experienced with JavaScript (ES6+), Tailwind CSS, Bootstrap, SQL, OOP principles, DSA, and CI/CD pipelines. Familiar with Generative AI concepts and DevOps fundamentals. Strong foundation in system design thinking, API-first development, and agile collaboration.

Training & Experiences

O7 Services — Summer Training, Jalandhar, India *07/2023 – 08/2023*
Gained hands-on experience in core and advanced Java, including OOP, exception handling, multithreading, collections, and JDBC.

- Completed mini-projects and assignments to improve coding efficiency and problem-solving skills.

GeeksforGeeks — MERN Stack Development Training (Online) *07/2025 – 10/2025*
Completed 14-week MERN stack training covering MongoDB, Express.js, React.js, and Node.js.

- Built practical projects to enhance understanding of frontend–backend integration, RESTful APIs, and full-stack workflows.

Projects

FlowerKart – MERN-based Marketplace
Developed a multi-role flower marketplace with **User, Seller, Admin, and Delivery panels**.

- Implemented JWT authentication, payment integration with verification, and Cloudinary image management
- Designed and deployed scalable REST APIs connecting a responsive React frontend to a Node.js/Express backend with MongoDB

DesiCart Multi-Vendor Hyperlocal Marketplace
Developed multi-vendor and multi-role web platforms with JWT authentication.

- Built using MERN stack with REST APIs and responsive UI
- Implemented vendor management, product listing, and order processing system
- Ensured smooth communication between frontend and backend using structured API design

E-commerce Web Application
Developed a full-stack e-commerce platform using MERN stack

- Features product catalog, shopping cart, user authentication, and order management.

Personal Portfolio Website
Developed using HTML, CSS, and JavaScript.

- Fully responsive design with smooth navigation highlighting projects and technical skills.

Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, Material-UI
- **Backend:** Node.js, Express.js, MongoDB, SQL, REST APIs, JWT Authentication
- **Tools & DevOps:** Git, GitHub, CI/CD, Cloudinary, DevOps basics
- **CS Fundamentals**: Data Structures & Algorithms, OOP, Microservices concepts
- **AI & Others**: Generative AI (ChatGPT, prompt engineering), Java

Soft Skills

- Leadership
- Event Management
- Teamwork & Collaboration
- Time Management
- Responsibility & Initiative
- Problem-Solving
- Social Awareness
- Creativity

Education

- **Master of Computer Applications (MCA)** *04/2024 – 03/2026*
  Guru Ghasidas University, Bilaspur, India
- **Bachelors of Computer Applications (BCA)** *04/2021 – 03/2024*
  DAV Institute of Engineering and Technology, Jalandhar, India

Certifications

- **MERN Stack Development** — GeeksforGeeks
- **Generative AI and ChatGPT (Self Paced)** — GeeksforGeeks
- **Core Java** — O7 Services
- **Leadership & Event Coordination** — Techfest, DAV Institute of Engineering and Technology
