Summary

Full Stack Developer with experience in JavaScript, React.js, Node.js, Express.js, MongoDB, MySQL, HTML5, CSS3, and REST APIs. Skilled in building responsive web applications, integrating APIs using AJAX and Fetch, managing code with Git, and developing scalable frontend and backend solutions. Strong understanding of ES6+, OOP concepts, HTTP request flow, and modern web development practices.

Training & Experiences

- GeeksforGeeks** — MERN Stack Development Training (Online) 07/2025 – 10/2025
Completed 14-week MERN stack training covering MongoDB, Express.js, React.js, and Node.js.
- Built practical projects to enhance understanding of frontend–backend integration, RESTful APIs, and full-stack workflows.
- O7 Services** — Summer Training, Jalandhar, India 07/2023 – 08/2023
Gained hands-on experience in core and advanced Java, including OOP, exception handling, multithreading, collections, and JDBC.
- Completed mini-projects and assignments to improve coding efficiency and problem-solving skills.

Projects

- FlowerKart – MERN Marketplace**
- Built a multi-role platform (**User, Seller, Admin, Delivery**) with JWT-based authentication and role-based access control
 - Developed RESTful APIs supporting 4 distinct user roles, reducing data retrieval time through optimized MongoDB queries
 - Integrated Cloudinary for image handling and implemented payment verification workflow
 - Utilized MongoDB, Express.js, and Git for efficient data management, backend development, version control, and collaborative development.
- Personal Portfolio Website | React, Tailwind CSS, EmailJS**
- Developed a responsive portfolio website to showcase projects and technical skills
 - Implemented contact form using EmailJS with automated message handling
 - Integrated dynamic project linking and Optimized UI performance, achieving a Lighthouse score of 90+ and ensuring 100% cross-device compatibility.
- Flappy Bird – Full Stack Authentication + Game Dashboard**
- Developed a full-stack authentication platform featuring a **Flappy Bird-style browser game** with persistent user statistics and leaderboard system
 - Built a modular React frontend with **MVP architecture**, Context API state management
 - Designed gameplay mechanics including **gravity physics, collision detection, score tracking**

Skills

- Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, Material-UI, Responsive Web Design, AJAX, Fetch API
- Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- Database:** MongoDB, MySQL
- Tools & DevOps:** Git, GitHub, CI/CD, Cloudinary, DevOps basics, Postman
- CS Fundamentals:** Data Structures & Algorithms, OOP, Microservices concepts, MVC Architecture
- AI & Others:** Generative AI (ChatGPT, prompt engineering), Java

Education

- Master of Computer Applications (MCA)** 04/2024 – 03/2026
Guru Ghasidas University, Bilaspur, India
- Bachelors of Computer Applications (BCA)** 04/2021 – 03/2024
DAV Institute of Engineering and Technology, Jalandhar, India

Certifications

- MERN Stack Development** — GeeksforGeeks
- Frontend Developer (React)** — HackerRank
- Generative AI and ChatGPT (Self Paced)** — GeeksforGeeks
- Core Java** — O7 Services
- Leadership & Event Coordination** — Techfest, DAV Institute of Engineering and Technology
